

The Sapphire Ball

**NO NEEDLES
TO CHANGE**

You can build a permanent musical library with Pathé Records. Over sixty thousand titles to select from.

The latest songs out first — and best on Pathé Records — the popular hits and the new one step, fox trot and jazz.

**Pathé
RECORDS**

NO BIGGER than the head of a pin — highly polished and rounded by hand — the Pathé Sapphire ball holds the secret of perfect tone. It gives absolutely perfect duplication of tone.

This round, polished ball fits exactly into every tone wave registered on the record. It never misses the slightest indentation; it never scratches down the high notes, or jumps from one groove to the next.

In every sound groove of the record, the Sapphire ball gives the perfect angle of contact, the clear, crisp duplication of tone. It is the echo of sound, as accurate as the mirror is to sight.

The Sapphire ball will not wear out records. A Pathé record played on a Pathé phonograph will last practically forever. We guarantee every Pathé record to play at least one thousand times with the Pathé Sapphire ball, without losing the unexcelled beauty of tone, and without showing any perceptible wear on the record.

Let Your Ears Decide

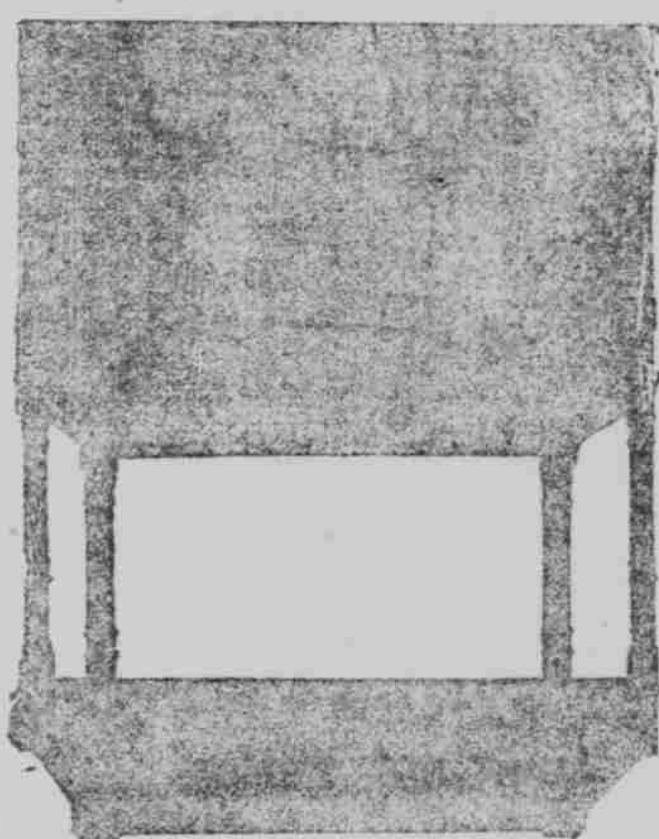

Hear the old fashioned steel needle phonograph played in the old fashioned way — then come in and hear the Pathé phonograph. Listen to the tone — pure, clear and crisp — as it comes from the instrument — free from the harsh metallic sounds — all pure music. See the tiny round Sapphire ball gliding smoothly around the record. Then your ears will decide that Pathé is the best.
